## great celtic music

Polish music formation Donegal, which is concentrate around Celtic music was formed in 2000. Since this time we got fabulous scenic experience, professional arts level and assembled big group of fans. It was possible thanks to high instrumental abilities of members of our group and also our high engagement. The source of our big fascination is of course incredible Celtic music, which gave us personal inspiration to create our arrangements such as: reel, jig and hornpipe.

Music of our group runs beyond typical styles, break conventions and canons to unknown manner – we connect traditional Celtic tones with elements of pop, rock, blues, bluegrass music. Our musical abilities we have confirmed many times during hundreds of concerts and shows in country and abroad. All the time our performances face with unusual benevolent and big enthusiastic acceptance during open-air concerts, as well as in small intimate halls of clubs and pubs. During concerts our group play on traditional Celtic instruments what entertains audience and meets with spontaneous reactions, and we are happy, that we just can give them a taste of climate of Irish pubs.

The band Donegal create:

Monika Szweda – violin

Roman Szweda – mandoline, bodhran bouzouki, tin whistles

Adam Anikiel – bass guitar

Piotr Lipiński – percussion, bodhran

We invite to cooperation!
